The Smallpox Situation.

As is usual when a contagious disease breaks out, many wild rumors are affoat about the small pox at Hondo. It is well not to heed such rumors and above all to avoid helping to spread them. At noon Friday we are authoritatively informed by those having the matter in hand that the contagion is still confined among the Mexicans in the locality where first discovered, several miles south of town, and that there are positively no cases in town. About 25 cases have developed so far around the place of origin. Of this number, four have died from other complications setting in. Several have recovered. A few are still sick with the disease. Every precaution possible is being taken to avoid a spread of the contagion and there is positively no occasion for any panicky feeling.

AGRICULTURAL LAND FOR SALE! Improved and Unimproved

In placing my holdings on the market, consisting of lands around Charlotte and Jourdanton, both improved and unimproved, I do so with the knowledge that these lands are most favorably situated and offer every convenience to those seeking homes. Within easy reach of every point are modern gins, well equipped schools, commodious churches, good roads lead everywhere, to nearby railroad stations and the best markets in Texas.

This property has not been offered earlier because these very necessary advantages were not to be had, but now they are a reality--nothing is left to speculation or future contingencies. Settlers now have all the advantages that can be found anywhere in a fully developed community without paving the prices that are asked in the older sections. You can have the benefit, for I am offering you the most desirable opportunity in Texas.

These lands are as good as can be had in South Texas; there are no better anywhere. Plenty of water can be obtained on any tract and shallow wells can be located at small cost furnishing an abundance of good water. The soil is fertile, there are no crop failures on these farms and no irrigation is necessary. No section of the state offers a more healthy or delightful climate, winter or summer.

A Cure for Chronic Constipation, Torold Liver and Irregular Bowel Movements.

most from its baneful effect.

A constipated person is an easy victim when exposed to any scrious disease—Pneumonia. Typhoid Fever, Malaria, Rheumatism, Small Pox, Yellew Fever and Bright's Disease gather their annual harvest of death among those who are habitually constipated. Even though they escape these diseases, such persons are always alling more or less. They have headsches, bad digestion, dizziness, virtigo (blind staggess), sellow complexion, flatulence, loss of strength; and no energy at all. Herbine has a most admirable effect in the bowels; it is cooling, purifying and regulating. It puts a present check on billiousness, wind in the bowels, nervousness, heartburn, had breath, low spirits, drownings in the daytime and nervous wakefulness at night.
